

**METHOD AND APPARATUS FOR FACILITATING REVISION OF A
PROCESS**

ABSTRACT OF THE DISCLOSURE

5 A system, method, apparatus, means, and computer program code for revising
a process and/or facilitating one or more revisions to a process. According to
embodiments of the present invention, a process is identified or otherwise determined
and analysis conducted on value added and core competencies associated with the
process. From this, one or more revisions to the process can be identified and
10 implemented.
